

Dr. Julia Fetter N.D.

2003 West 6th Avenue, Stillwater, Oklahoma

Certified Brimhall Functional Medicine Practitioner, L.M.T., Certified Holistic Nutrition Consultant, Certified Natural Health Professional, Master Herbalist, Certified Acupuncturist, CranioSacral Therapist

**Unlock your genetic potential
through Dr. Fetter's
Kinetic Genetics Assessment™**

Genetic defects or variants can lead to chronic illness, pain, inflammation, disease and emotional imbalances (i.e. anxiety, depression, ADD, ADHD, Autism Spectrum Disorder, Bipolar disorder, post partum depression and many others). Dr. Fetter assesses these genetic variants using a very new science of DNA testing and/or Applied Kinesiology. This assessment reveals extremely valuable information about how and why disease has presented in an individual. A nutrition bridge can then be created around your specific genetic variants. These nutritional bridges have the ability to change the way our genes are expressed. These changes in genetic expression pave the way for a whole new level of healing. We are truly working with the root causes of disease and imbalances.

**If you know your genetic risks, you
CAN do something about it!**
