CraniSacral / EBT™ Performed by Dr. Fetter

CraniSacral Therapy is a gentle, non-invasive approach that releases tensions deep in the body to relieve pain and dysfunction and improve whole-body health and performance. A typical session takes place in a quiet, private setting. You remain fully clothed as you relax on a very comfortable, padded table. It is extremely gentle, so CraniSacral Therapy can be effective for all ages, from newborns to elders. It helps relieve a full spectrum of pain, illness, and dysfunction, including:

Migraine Headaches
Chronic Neck and Back Pain
Motor-coordination Impairments
Digestive Disorders
Autism
Central Nervous System Disorders
Orthopedic Problems
Traumatic Brain and Spinal Cord Injuries
Scoliosis
Infantile Disorders
Learning Disabilities, ADD, ADHD
Chronic Fatigue
Emotional Difficulties
Stress and Tension-related Problems
Fibromyalgia and other Connective-tissue Disorders
Temporomandibular Joint Syndrome (TMJ)
Neurovascular or Immune Disorders
Post-traumatic Stress Disorder
Post-surgical Dysfunction
Hormone Imbalances
Sinus Issues and Tinnitus

Energy Balance Technique™ Combines CraniSacral Therapy with other modalities created by Dr. Fetter to maximize healing at affordable price. This trademarked technique allows Dr. Fetter to customize each visit to your specific needs with no additional cost.
